**AFOL MILANO – SERVIZIO EURES**

- Input and regularly update all opportunities in Salesforce, demonstrating model behaviors to promote the effective use of Salesforce.
- Ensure that for all large bids involving multiple internal stakeholders, a bid leader is agreed from the outset, with defined roles and responsibilities understood by the opportunity capture team.
- Collaborate extensively and actively engage with the growth product specialists and account managers in different teams or areas to support opportunities and projects as required.
- Stakeholder Mapping: Develop and regularly maintain a stakeholder engagement plan for each assigned account and establish clear metrics and accountability for all internal stakeholders linked to the account plan.
- Organise frequent executive level engagement with specified clients and ensure strategic relationships are maintained between LR's senior management and the clients' senior management.
- Take accountability for the accuracy and quality of the opportunity and account data input into Salesforce to ensure confidence in the performance reporting and sales forecasts.
- Report on client meetings and all aspects of competitor activity for each client. Disseminate this information to relevant internal stakeholders and share updates during relevant sales team meetings.
- Focus on ensuring we maintain superior customer service levels, operational excellence and strategic insight
- Feedback Handling: Seek and review client feedback, facilitate resolution of complaints promptly, and disseminate lessons learned to service delivery and client care teams as appropriate, in line with GMS and SLAs.
- Track account revenue, margin and sales performance and oversee contract management for assigned accounts, including securing contract renewals.
- Manage debt recovery and work with the area accounts payable team to support as required, the collection of payments that are overdue by 90 days or more for the assigned accounts.
- Proposal Development: Ensure high quality proposals and competitive quotes are produced for the assigned accounts, to expand LR's existing revenue, market share and relationship with the clients. Support the account team manager as required and actively participate in events, conferences, and workshops to network and promote LR.
- Ensure the ByD processes are followed as per the GMS and the full service scope that has been contracted with the client is clearly documented and communicated to the service delivery teams.
- Conduct activities in line with internal procedures, legislation and accreditation schemes, and pursue Continuous Professional Development to maintain a high level of discipline knowledge and awareness.
- Represent LR in external events

You will need

- A degree or equivalent from a tertiary organisation recognised by Lloyd's Register within the relevant field of engineering or physical science or qualifications from a marine or nautical institution and relevant sea-going experience as a certificated ship's officer.
- Proficiency in the English Language commensurate with the work
- Significant experience in Key Account management field and relationship network, preferably in O&G environment with an in depth understanding of sales and client care principles.
- Significant experience in leading an Account management team or Sales team in a virtual/international context, preferably in O&G environment.
- Significant negotiation skills to secure accounts at a profit.
- Strong commercial awareness. Ability to develop strategic action plans based on input from key persons.
- Strong knowledge of financial, budgetary planning, business planning, reporting and management.
- Strong team spirit. Excellent professional people skills to improve performance across the area of business.
- Thorough understanding of the O&G environment to manage commercial focus and find new business opportunities.
- Ability to communicate effectively at different levels within organisations and to influence successfully and openly at all levels – both inside our organisation and outside in the business.
- Ability and understanding to participate, communicate, positively contribute and add value in marine & offshore supply chain and technical discussions with clients and LR colleagues alike.
- Ability to understand and assess complex and sometimes unfamiliar situations, visualise solutions and see through to resolution.
- Enjoyment of building relationships, with the ability to pro- actively drive development of a network of key relationships internally and externally.
- High emotional intelligence with strong awareness of cultural differences within the countries; Demonstrate motivational skills in directing colleagues to achieve business objectives.
- Ability to embrace diversity and delegate and capitalise on the strengths of the team, proven track
